JOHN L. SAYS HE WAS NEVER SERI. OUSLY HURT BY A FIGHT.

Suck Rempsey is Having a Royal Time in Sils Old Home-Something About His Fis-tic Intentions-McCarthy and Campball, Jack Demrsey is having a royal good time with his old friends and admirers. His bene-fit at the Palace Rink in Williamsburgh on Monday night was a bumper, and the warmth of his reception made him feel that he has not lost one jot of his popularity through his defeat by the Marine. He is looking better than he has for five years, and, altogether, things are rose color with him just at present. He said the other day:

"I am not particularly anxious to fight anybody just now, but I am in the business, and if anybody will make it an object for me to tackle him I will do so. I am told through the papers that a club in New Orleans is anxious to have me fight Robert Fitzsimmons before it, and has effered a good-sized purse for such a fight. I think it a little strange that I have received no word direct if this is so. It seems to me that if I am expected to be one of the principals I eight to be consulted in the matter." I ex-plained that I had heard that the secretary of the club could not find Dempacy's address.
"Well, I am here now in New York," he replied." and I guess it will not be difficult to each me." Jack has kept a close ere on Pitzsimmons's movements since he arrived in this country, and he is satisfied that the Australian is an out-and-out good one, but if any club in first-class standing will but if any club in first-class standing will hang up a suitable purse he will fight him. Of course he would like the purse to be as large and fat as possible—a \$3,000 one is tempting—eith he will back himself in a by bet for from \$5,000 to \$10,000. He would like the by bet to e made when the purse is offered. Of course this is what Jack would like, but we don't always get our desires in this world, and Dempay may have to content himself with a molety state wishes.

way get our desires in this world, and Dempsy may have to content himself with a molety of his wishes.

He is contemplating a trip to England and Ireland, where Jack Burke is making a good deal of talk about a fresh match with him The Ormonde Club has signified its willingness to hang up \$2.500 for a fight between Dempsey and Burke, but the Nonparell will hardly cross the herring pond in search of battle and boodle of this character while there is a better man than Burke on this side of the water to face and twice the amount of wealth to gain by so doing. My opinion of the matter is that Jack has his eye on the far Northwest. The Marine is there now, pretty hadly sprung financially. He is matched to fight young Mitchell in Seattle in October, and if he wins with that game fighter he will feel pretty socky, and when the money he gets out of the pure is gone he may feel more disposed to make a fresh match with Dempsey. Should he defeated, Jack will immediately make an effer to Young Mitchell. Should he meet and defeat the victor of this match, the blot on his escutcheon will be cleared away, and he will again be the Nonparell without question from anybody.

As I say, I think this is Jack's present programme, but circumstances may change if at

Yesterday the child was claimed by its mother. Mrs. Kate Reegan of 405 East Seventy-eighth are. Asie Reegan of 405 East Seventy-eighth street. LIGHTNING STRUCK THE BOTEL

A Sudden Stop Put to the Merrymaking of a Party of Excursionists.

MAUCH CHUNK, Pa., Aug. 80.-A party of over thirty moonlight excursionists on the Switch-back Railroad, at Mauch Chunk, Pa., barely escaped with their lives last night. Mrs. Theodore G. Mumford, the wife of the proprietor of the Switchback, had arranged an excursion over the famous gravity road. They enjoyed the trip to Summit Bill and immediately went to the Eagle Hotel, where a sumptuous repast had been prepared. Threatening storm clouds had portended trouble, and when the gentlehad portended trouble, and when the gentlemen and ladies were in the beight of their
enjoyment it burst upon them in all its fury.
Lightning played over the burning mines,
the electricity communicated with the everarising gases, and for miles the aspect was
of a burning prairie. While the merrymakers
were admiring the sight, a flerce, brighter
blast than its predecessors lighted up the
mountains. Closely following came a terrific
peal of thunder. It appeared as if the heavens
had opened up and swallowed the hotel and
its surroundings. Ladies swooned, and even
the bravest of the gentlemen present heid
their breath, knowing not which way to turn.
A forked tongue of fire passed completely
through the house, entering at the rear of the
ballroom a d emerging through the front,
tearing away everything in its course and
completely shattering every article of glassware in the bar. Everybody in the house was
stunned, several more or less injured by the
shock, but luckly none was seriously burt.
The party were compelled to wait until early
morning before making the return trip, as the
storm continued for several hours.

CRABS A-PLENTY. A Bay's Catch Throws Away by Men who were Looking for Red Ones.

BRIDGEPORT, Aug. 30 .- An avalanche of crabs this vicinity, and it is the popular sport now for summer visitors to entrap the lively crustaceans. All the creeks and edges of the harbor swarm with crabs, and small boats are in great demand for the use of young people who enjoy the sport. A party of Black Rock ladies and gentlemen who are among the Four Hundred in New York during the winter Hundred in New York during the winter months, but who are supposed to know all about summer sports, and fishing in particular, hired two or three boats reserving and fitted themselves out with nets and lines for a day's fun. They had splendid luck and interesting incidents were plentful. At night when 300 crabs were counted out as a result of the day's fishing, it was decided that the whole lot should be thrown overboard, as crabs were not good unless of the red variety. These crabs were of the dirty brown color, and one of the ladies had a smartyoung fellow as an escort who was certain that red c abs were the only ones that could be eaten with rafety. Consequently the muddy looking animals were restored to their native element, and when the tired fisher folks returned to the hotel they were informed by Landlord Wells that no one ever knew of a crab turning reduntil it was boiled.
